

Logistics and Supply Chain Management Practice

Moving products and services from producers all the way down the chain to customers, is big business. Organisations need to pay special attention to the logistics and supply chain, ensuring that the chain functions effectively, that the role-players are working together effectively and that waste or additional costs are managed effectively. This course enables learners to develop the professional skills to analyse and improve an organisation's logistics and supply chain.

Course Facts

Course delivery

Online, digitised short course

Course duration

Ten weeks

Notional learning hours

5-7 learning hours per week, anytime, anywhere

B-BBEE

Assistance offered to obtain Category B recognition under Skills Development element of B-BBEE scorecard
